

Have a chip card?

During the transition to chip, you can swipe your card as you normally would and follow the prompts. If the terminal is chip-enabled, it will prompt you to insert it instead. If you already know your chip card works there, start by inserting your card.

1

At chip-enabled terminals, insert your card with the chip toward the terminal, facing up. Do not remove until prompted.

2

Provide your signature or PIN as prompted by the terminal. Some transactions may not require either.

3

When the terminal says the transaction is complete, remove your card.
