

# A new and improved online and mobile banking experience is coming!

## Here's what you need to know and how to prepare:

- **Your user ID won't change.**
- If you've named any of your accounts with a nickname (for example, grocery account or vacation account) you'll need to note these. **Any nicknames won't transfer** to the new online banking platform in October.
- The password upon initial login will be the **last 6 digits of your Social Security Number.**

We strive to provide you with the best online banking tools to manage your finances with confidence and ease.

More information to come as we get closer to the launch date!
